Today's Reports for Tomorrow's Decisions

A Word About NASS Reports...

The Agricultural Statistics Board (ASB) publishes reports of production, stocks, inventories, disposition, utilization, and prices of agricultural inputs and commodities, and other items such as labor, farm numbers, and agricultural chemical usage.

National reports are issued from the Washington, D.C., headquarters. Individual State reports are issued from the State Statistical Offices (SSO's) following release of the national reports. Printed copies of both ASB and SSO reports are available for a fee.

An abundance of agricultural information is available to data users through our programs. In addition to the information above, estimates on more specialized commodities, including hop stocks, mink, cherries, cranberries, lentils, and peppermint oil are also available. The information is geared toward producers and can help them plan planting, feeding, breeding, and marketing programs. The data are also used by agricultural organizations, services, and businesses; trade groups; and financial institutions to determine demand for inputs, resources, transportation, and storage-related crop and livestock products. In addition, the data are used to make and carry out agricultural policy concerning farm program legislation, commodity programs, agricultural research, and rural development

How to Order

To subscribe to national reports, use the order form in this publication or call toll-free **1-800-999-6779**. State reports may be obtained from the appropriate SSO (see pages 20-22).

Electronic Information

NASS reports are available electronically immediately after release via Today's Reports from the NASS Homepage at <http://www.usda.gov/nass/>.

E-Mail Subscriptions

E-Mail Subscriptions to NASS, and WAOB periodicals are available free of charge via e-mail, generally delivered within one hour of publication. Our electronic mailing list provides quick and timely access to the agricultural and economic information estimates you need now. Please note that delivery time may take longer depending on factors, such as network speed and report size. More information is provided on page 3.

NASS Revision Policy

Most estimates are subject to revision, if necessary, when the next estimate is prepared. Revisions are made to provide data users with the best possible data for evaluating the current estimates. Revisions are based on additional information, such as new surveys, late reports, corrected data, or more complete administrative data. Revisions may also be based on a re-evaluation of previous survey data when making current estimates to improve survey to survey relationships.

When the 5-year Census of Agriculture results become available, all estimates made during the previous 5 years are reviewed for possible revisions.

Internet Published Estimates Database

Historical County, State, and U.S. information is now available in an online database via the Internet **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets. The database can be accessed from the NASS Homepage at: <http://www.usda.gov/nass/>.

NASS on the World Wide Web

Periodicals, Publications, and Data on the World Wide Web

NASS has a homepage on the World Wide Web that provides easy access to the wide range of information and data produced. Through the homepage, you can obtain copies of all reports described in this catalog, commodity and price specialists, and more.

NASS Homepage -- <http://www.usda.gov/nass/>

Through a cooperative project with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service(ERS), and World Agricultural Outlook Board(WAOB) periodicals and data files via the USDA Economics and Statistics System on a web server. Over 400 reports annually and over 100 data files are available free of charge. All NASS reports and WAOB's World Agricultural Supply and Demand Estimates(WASDE) are available electronically within minutes of release.

A calendar of scheduled releases is available from the USDA Economics and Statistics System. From the NASS Homepage, click on Search and then click on Calendar in the upper frame.

NASS Subject Specialists on the Internet

NASS maintains a listing of subject and commodity specialists for the various program areas. From the NASS Homepage, Click on Publication, then Contacts.

NASS Customer Service

NASS operates an information center, staffed 7:30 a.m. to 4 p.m. ET Monday-Friday, to assist you with accessing their reports and data via the Internet, autofax, or printed copies. Please call 1-800-727-9540.

Internet Published Estimates Database

Historical County, State, and U.S. information is now available in an online database via the Internet **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets. The database can be accessed from the NASS Homepage at:

Check the NASS Homepage frequently for new data from on-going surveys and special follow-on surveys from the Census of Agriculture.

Free E-Mail Subscription to NASS Periodicals

Subscribe E-mail - Mann Library provides a **FREE** e-mail service for NASS reports. When a current report is released, it is sent via e-mail to the list of subscribers for that report. From NASS Homepage at <http://www.usda.gov/nass/>, select **Publications**. From the **Publications** page, the **Subscribe E-mail** button takes the user to the page describing e-mail delivery of reports. Click on **Go to the subscription page** and follow the instructions. It's as simple as clicking on the report name.

Subscriptions may also be obtained by sending an e-mail

message to usda-reports@usda.mannlib.cornell.edu. In the body of the message put "Subscribe XXX, where XXX is the "Report Code" for each publication desired. To order NASS reports send an e-mail message to:

usda-reports@usda.mannlib.cornell.edu subscribing to the desired reports. As an example, user entries in the message for *Crop Production* and *Hogs and Pigs* would be:

NASSFax Information Service

This system is operated by the National Agricultural Statistics Service (NASS) of the U.S. Department of Agriculture as a service for users of NASS information. Documents available **FREE** through NASSFax are reports issued by NASS. In general, **current U.S. summary pages and report highlights are available via the NASSFax for selected reports by document number. The 1997 Census of Agriculture State Highlights are also available.**

NASS statistical reports provide estimates of production, stocks, inventories, disposition, utilization, and prices of agricultural inputs and commodities, and other items such as labor, farm workers, and chemical usage.

Request **document number 0100** on the NASSFax for a **complete listing** of NASS report titles, stock number, and price information.

You may obtain a subscription to any of the full NASS printed reports by calling the ERS-NASS Order Desk at 1-800-999-6779. A free *NASS Guide to Products and Services* catalog is also available at this toll-free number upon request. Refer to the *NASS Guide to Products and Services* catalog for

a brief description of specific report contents.

It's quick and it's easy. Helpful hints:

1. Pick up the receiver on your facsimile machine (or a touch-tone telephone associated with your fax machine), dial 202-720-2000, listen, and respond to the voice prompts.
2. If you know the document number of the report(s) you desire, you can override the opening greeting by entering the document number as soon as the system answers.
3. You can request up to three documents in one phone call.
4. When answering system prompts, 9="yes" and 6="no."

CD-ROM Products

Agricultural Statistics Book 2000.

Agricultural Statistics Book 2000 CD-ROM. April 2000. **Order # NASS-ZAG-2000CD, \$28.00.** *Agricultural Statistics* is published each year to meet the diverse need for a reliable reference book on agricultural production, supplies, consumption, facilities, costs and returns, land resources, farm programs, crop insurance, crop loans, etc. The publication contains 10 years of U.S. data and 3 years of State data covering a wide variety of agricultural facts through the 1999 production year. A comprehensive statistical report (approximately 500 pages) containing current and historical agricultural data, updated annually. Statistics cover grain and feed; cotton, tobacco, sugar crops, and honey; oilseeds, fats, and oils, vegetables and melons; fruits, tree nuts, and horticultural specialties; hay, seeds and minor field crops; cattle, hogs, and sheep; dairy and poultry statistics; farm resources, income, and expenses; taxes, insurance, credit and cooperatives; stabilization and price-support programs; consumption; fertilizers and pesticides; and more. Also available in paper back; **Order # NASS-ZAG-2000, \$28.00.**

1997 Census of Agriculture CD-ROM Set - 1A, 1B, 1C. *Census CD-ROM Order #AC97-CD-VOL1, \$50.* The 1997 Census of Agriculture State and county data are provided in this three CD-ROM set. The set includes software and manipulable data files. It also includes Adobe Acrobat Portable Document Format (PDF) files of the printed reports for each State and the U. S. Summary.

New in 1999

1998 Childhood Agricultural Injuries - October 1999. NIOSH, an agency of the Centers for Disease Control and Prevention, sponsored this survey to better understand the magnitude and scope of childhood agricultural injuries.

Agricultural Chemical Usage - 1997 Livestock and General Farm Summary - April 1999. This report provides pesticide use information on segments of agriculture not previously collected by NASS. The data in this report, along with the regular pesticide use program focused on crop-specific items, will enable a more comprehensive look at the total amounts of pesticides used in the U.S.

Equine - March 1999. This is the first NASS publication of U.S. equine statistics. The report contains total equine inventory for 1998, equine sold, and value of sales.

U.S. and Canadian Cattle - February 1999.

Year 2000 Computerized Systems Readiness Report - February 1999. Data was collected to determine how many farmers had heard of the Y2K problem, where some computerized systems may fail because of the two digits used to represent the year, and how this could impact their automated farm systems.

Monthly Ag Facts Newsletter - available through the NASSFAX and Internet. To reach the NASSFAX, dial 202-720-2000 from a touch tone phone connected to your fax machine; follow the voice responses; ask for document number 0030. Or access the newsletter on the Internet <http://www.usda.gov/nass/>; select Publications; then select the Newsletter.

Parents, Educators, Kids! NASS KIDS! Check it out on the Internet <http://www.usda.gov/nass/>; select NASS KIDS. Includes games, trivia data, teacher resources, lesson plans, and more. English and Spanish. This site was designed and made available on the Internet to create awareness and generate interest in agriculture and agricultural statistics in the younger audience.

For Your Information

Other informative agency publications and items, other than the NASS Reports Collection, might be of interest to you. They are available to you just for asking. Call 1-800-727-9540 to request a copy.

■ **Statistical Highlights** - an annual publication produced by NASS that brings together the most important current economic and statistical information on agriculture in a single summary report.

■ **Fact Finders of U.S. Agriculture** - Newly revised edition discusses the organization of the National Agricultural Statistics Service, the importance of agricultural information, the history of agricultural statistics, the NASS estimating program, the 5-year Census of Agriculture, the integrity of estimates, assistance to other organizations and other topics.

■ **NASS Electronic Information** - A publication designed as a guide to assist users accessing the NASS information on the Internet. Also, discusses the various ways of obtaining other electronic information from NASS.

■ **State Statistical Offices' Publication Listing** - A listing of the publications containing valuable State agricultural information from the NASS's 45 field offices (SSO's). Also discusses the State office e-mail subscription process for receiving the reports electronically.

■ **Vegetation Imagery Maps** - For your information and use, these high resolution colored maps covering major field crops are available to you from the NASS homepage at www.usda.gov/nass/; Select "Statistical Research" and locate the maps of choice and download to a **color** printer.

Survey Assistance to Other Organizations

In addition to the many statistical activities directly related to its mission, NASS conducts surveys for and lends technical expertise to other Federal agencies, State governments, and private organizations on a reimbursable basis. NASS provides support and assistance in the areas of questionnaire and sample design, data collection and editing, analysis of survey results, and training. For further information contact the Survey Administration Branch at 202-720-2248.

NASS International Program Activities

NASS technical support is not confined to the domestic sphere since Agency specialists frequently provide assistance and training to other countries to help establish or improve agricultural statistics programs.

NASS has been involved in international training and technical assistance activities for over 35 years. Assistance and training are provided to the technical staffs in other countries for improvement of individual skills and organization's survey methodology to provide more reliable and timely agricultural information. NASS participates in reimbursable international training and technical assistance because they:

1. Allow for improvement of USDA's own assessment of food and fiber production capabilities and levels in foreign countries;
2. Assist the U.S. Government's efforts to help developing countries improve institutions that can help eliminate hunger and poverty; and
3. Develop NASS's human resources by exposure to other cultures and work situations.

For further information contact the NASS International Programs Office at 202-720-4505.

Data Users Meetings

Give Us Your Feedback!

Over the past several years, NASS has sponsored annual U. S. Department of Agriculture (USDA) data users meetings in various cities to solicit comments and suggestions from users of statistical and economic reports issued by NASS, World Agricultural Outlook Board, Economic Research Service, Foreign Agricultural Service, and Agricultural Marketing Service.

These meetings provide an open forum where representatives of the data programs are available to answer questions about their agency's current programs and receive public suggestions for possible changes.

Proceedings are prepared from some of the meetings and provided to the participants.

The dates and locations vary annually, and will be announced when scheduled for 2000. These meetings are announced on the Internet at the NASS homepage <http://www.usda.gov/nass/>; under "Coming Events and News" as soon as they are determined for the upcoming year.

Written comments concerning the data users meetings, questions, or requests for additional information are welcomed. Please direct comments or questions to Jack Nealon, USDA-NASS, Room 5801 South Building, Washington, DC 20250-2000. Phone (202) 720-3896, fax (202) 690-1311, or e-mail edod@nass.usda.gov

Census of Agriculture

The census is conducted every 5 years.

The census of agriculture is taken to obtain agricultural statistics for each county, State, and the Nation. The census is the leading source of statistics about the Nation's agricultural production and the only source of consistent, comparable data at the county, State, and national levels.

The census includes all places from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year.

NASS Products and Services

Special studies and censuses are conducted as follow-on programs to the census. They include a farm and ranch irrigation survey, an agricultural economics and land ownership survey, a census of horticultural specialties, and a census of aquaculture.

Data Products

Volume 1, Geographic Area Series

State and County Data. *Census reports.* To order see table. Separate State reports display statistics for the entire State and every county or equivalent. The United States Summary provides national data and selected data for each State. Data include number of farms; farm characteristics; livestock, poultry, and their products; crops; irrigation; operator characteristics; ownership; income; production expenses; chemical use; land use; and more. Reports cover 1997, with comparative data for previous census years. Additional reports are presented for Puerto Rico, Guam, the U.S. Virgin Islands, the Commonwealth of Northern Mariana Islands, and American Samoa. Available on Internet (*include your website URL if you want*) and CD-ROM.

CD-ROM Set - 1A, 1B, 1C. *Census CD-ROM, Order # AC97-CD-VOL1, \$50.00.* The 1997 Census of Agriculture State and county data are provided in this three CD-ROM set. The set includes software and manipulable data files. It also includes Adobe Acrobat Portable Document Format (PDF) files of the printed reports for each State and the U. S. Summary.

Highlights and Profiles

State and County Highlights. Presents basic data including farms by size, land use, market value of sales, operator characteristics, livestock and poultry inventories, and major crops for every county and by State. Data provided for the current and previous census years. Available on Internet.

State and County Profiles. Describes changes in several key agricultural statistics and the rank of each county in the State and the Nation in crop acreage, livestock inventories, and sales. Graphics included. Available on Internet.

Volume 2, Subject Series

ZIP Code and Congressional District (105th Congress) Tabulations. *Census CD-ROM disc.* **Order # AC97-CD-ZCCD.** Presents agricultural statistics by five-digit postal ZIP Code and Congressional district (105th Congress) in two separate files, for all farms in all 50 States. Tables show the total market value of products sold and the number of farms by size for land in farms, cropland harvested, selected crops, and inventory of cattle, calves, hogs, and pigs. Crops vary by State, and tables show number of farms by acres harvested for commodities such as tobacco, cotton, soybeans for beans, peanuts for nuts, and land in orchards. Available on Internet and CD-ROM in the spring of 2000.

Agricultural Atlas of the United States. *Census Report.* **Order # AC97-SU-1, \$25.00.** Features a series of maps highlighting agricultural activities and characteristics such as farm number and size, selected crops harvested, livestock and poultry inventories and number sold, agricultural sales, production expenses, land use, irrigation patterns, fertilizer and chemical use, and machinery and equipment inventories. Displays some changes from 1992-97. Covers the United States, States, and counties. Available on Internet.

Ranking of States and Counties. *Census Report.* **Order # AC97-SU-2, \$25.00.** Ranks the leading States and counties for selected items from the 1997 Census of Agriculture. Items ranked include number of farms, value of products sold, inventory of livestock and poultry, and production and acreage of major crops. Most tables show data for 20 leading States and 100 leading counties. Also, most tables include the cumulative percent of the United States total as each leading State or county is ranked. Available on Internet and in printed reports.

Volume 3, Special Studies

1998 Farm and Ranch Irrigation Survey. *Census report.* **Order # AC97-SP-1, \$25.00.** Displays results from a sample survey of farm and ranch operators who reported using irrigation in the 1997 census. Includes acres irrigated; yields of specified crops; method of distribution; quantity and source of water used; number and depth of wells; pumps used in moving water; energy use; and expenditures for maintenance and investments for each State, 20 water resources areas, and the United States. Includes some comparative data from 1994. Available on Internet and in printed report.

1998 Census of Horticultural Specialties. *Census report.* **Order # AC97-SP-2.** Presents tabulations on number of establishments, value of sales, type of horticultural products, and

other data items for horticultural operations. Covers the United States, each State, and leading counties. Available on Internet, and in printed reports. Due March 31, 2000.

1998 Census of Aquaculture. *Census report.* **Order # AC97-SP-3.** Provides data on size of operation, methodology, sales by category, losses, irrigation, and other topics. **This will be the Nation's first census of aquaculture.** Available on Internet and in printed reports.

ACKNOWLEDGEMENT

Many thanks to the farmers, ranchers, and producers across the nation who willingly participate in the surveys with the National Agricultural Statistics Service, U. S. Department of Agriculture. They are the strength behind the NASS agricultural inventory, production, price and environmental information, products and services. We appreciate their support and cooperation—they are the cornerstone of the food and fiber system that feeds and clothes the world.
